SUMMARY

Seeking a challenging role at a reputed IT organisation to utilize my engineering skills that can contribute to the company's growth as well as enhance my knowledge by exploring new things.

PROJECTS

Authentication

https://frontend-f6gd.onrender.com/ · September 2023 – December 2023

· first I learnt basics of MERN stack .Then I did project on authentication.In this project I developed pages like signup,signin,a page for
  updating password,and home page .In the home page the details of users are displayed who are created accounts
